# UP SHILL

*NFT ART*

WHITEPAPER V1

# EMPOWERING NFT CREATORS ON UPSHILL NFT

# THE UPCOMING PLATFORM

Our platform will be powered by USHI token and users of our platform will be able to stake our token to claim or issue NFT's.

First, we are releasing a web version and later apps for both Android & IOS. Our apps will enable the creation of NFT's from phones.

# MARKETPLACE

We are creating a marketplace that will be integrated into our platform.

This will enable anyone to easily sell their NFT's. The users of our marketplace will be able to choose between selling their NFT's spot-style or auction-style.

A portion of the fees collected from our marketplace will be burned, further reducing our total supply of USHI tokens.

# TOKENOMICS

5% DEVELOPMENT, MARKETING

45% PANCAKESWAP LIQUIDITY POOL.

50% AIRDROP AND PUBLIC SALE
